Subject: Certificate of Outstanding Service as Reviewer of the IEEE Control Systems Letters - 2023

Dear Dr. Fotiadis,

On behalf of the Editorial Board of the IEEE Control Systems Letters (L-CSS), I would like to sincerely thank you for your contributions as a reviewer during the year 2023. The success of the L-CSS is largely due to the work of the volunteers who are involved in the editorial process.

The Editorial Board of the L-CSS recognizes every year a small, selected group of referees who we believe have done a truly outstanding job reviewing papers submitted to our journal. For us this distinction indicates a high degree of commitment to our professional community and a clear evidence of one's high level of technical ability in our field.

Although I cannot offer you any other tangible token of appreciation, please regard this letter as a formal recognition of your remarkable contribution to the IEEE Control Systems Letters. Please feel free to share its content with whomever you deem appropriate.

Sincerely,

M. Elena Valcher, EiC
